SUMMARY

Second-year CSE student (CGPA 9.2) with 4 shipped full-stack projects spanning real-time systems, role-based platforms, and REST APIs. Proficient in React, Node.js, MySQL, and Socket.io; experienced with Firebase FCM, JWT auth, PWA, and Google Drive API integrations. Seeking an internship to contribute production-ready code and grow across the full stack.

EDUCATION

Dr. H.N. National College of Engineering, Bengaluru

2024 – 2028

B.E. Computer Science & Engineering · Visvesvaraya Technological University

CGPA: 9.2

SKILLS

Languages:	Java, JavaScript, Python, C
Frontend:	React, Vite, PWA (Workbox), FullCalendar.js
Backend:	Node.js, Express, Spring Boot, Socket.io, REST APIs
Data & Cloud:	MySQL, Firebase FCM, Google Drive API, Nodemailer, JWT, Git, GitHub
Concepts:	OOP, Role-Based Access Control, Database Design, Real-Time Systems, Agile

PROJECTS

Auditorium Booking System

[GitHub](#)

React · Vite · Node.js · Express · MySQL · Firebase FCM · PWA

- Built a role-based booking platform serving **3 colleges** (~200+ users), replacing fully manual scheduling — cutting booking conflicts to zero through automated conflict detection.
- Implemented dual real-time notifications (email via Nodemailer + Firebase push) and an automated **daily cron job** for post-event report reminders, reducing missed follow-ups.
- Added role-scoped PDF/Excel exports, secure file uploads, and PWA support — enabling an installable, offline-capable experience across devices.

QuizLive — Real-Time Quiz Platform

[GitHub](#)

React · Node.js · Express · Socket.io · MySQL · JWT

- Engineered live multiplayer quiz rooms supporting **concurrent players** with sub-100ms Socket.io score updates, streak multipliers, and a real-time leaderboard.
- Designed a **10-table normalized MySQL schema** covering users, rooms, questions, answers, scores, and sessions; implemented JWT auth and anti-cheat (tab-switch/focus-loss detection).

Smart Study — Study Material Portal

[GitHub](#) | [Live](#)

React · Vite · Node.js · Express · Google Drive API

- Created a subject-wise notes and PYQ portal with search and category filtering, serving materials for **10+ subjects** via Google Drive API with protected downloads.
- Built a **catalog auto-recovery system** that rebuilds the full file index from Drive metadata after complete data loss — eliminating any need for manual re-upload.
- Deployed on Render with an admin dashboard providing live JSON snapshots; **zero downtime** re-indexing on data loss events.

CERTIFICATIONS

Programming in Java — NPTEL · IIT Kharagpur

Government-backed certification covering Java fundamentals, OOP, and core CS concepts.

ACHIEVEMENTS & LEADERSHIP

- Won **multiple inter-college and school-level quiz competitions**, consistently placing under time-pressure in competitive academic environments.
- Led **3+ project teams** in college initiatives — handled planning, task delegation, and ensured on-time delivery across each project.
- Active contributor to college tech communities; regularly organizes and participates in peer learning sessions and technical events.
